

Gaelle Roche

Gaelle Roche, UK based Photographer

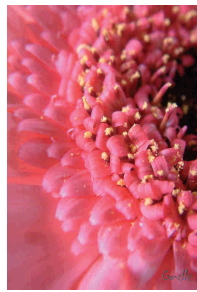

Gaelle is a French born, versatile and gifted artist mixing photographic artwork with decorative glass, in various forms. Working with designers, architects and corporate clients, she is using the peaceful quality of her work to enhance and transform mundane reality into the sublime with her unique and beautiful artwork. Her desire is to transmit her passion for colours and textures. She wants other people to share her vision, to enhance their life, heal, relax and improve their well-being, and in turn to inspire them. Working mainly with glass, her artwork creates a sensorial experience through image, sound, texture, aromas and lighting, touching all of the senses in many different ways. Subtle and intriguing, it is a combination of visual art and innovative technologies. "It is designed to surprise and impress whilst offering practical design solutions." She has now added to her portfolio an exclusive collection for Artcoustic. Carefully selected, this collection of artwork will emphasise interiors whilst providing discrete high quality sound. Innovation and beauty joining in harmony for your pleasure.
